

Application No. : 10/ 646, 914

Amend. Dated July 22, 2004

Amendment to the Abstract:

Amendment has no new matter.

Please replace abstract paragraph with the following amended paragraph:

Muscle toner is a progressive resistance fitness device to simultaneously activate ~~and stretch~~ muscle groups in arms, shoulders, upper chest, upper back, and neck areas. [[Its function-neutralizes removes muscle tension, strengthens muscle fibers, and restores the physiological muscle tone.]] It strengthens muscle fibers, removes muscle tension, and restores motion to joints. [[Alterations in muscle tonus are associated with tension headaches, neck and shoulder pain, and snoring.]] [[wing to the fact that muscle groups are intertwined with each other, any of the above ailing conditions would affect, or would be the result of pertaining disorder involving, more than one group of muscles.]] [[The effectiveness of Muscle toner in the prevention and treatment of tension headaches, neck and shoulder pain, and snoring is related to its simultaneous action on all affected muscle groups.]] Exercising with muscle toner is effective in the prevention and treatment of snoring, tension headaches, neck, and shoulder pains.
